***Allowable Subject Matter***

1. The preliminary amendment filed on July 26, 2004 has been entered.

Accordingly, Claim 5 has been amended.

2. Claims 1-11 are allowed.

The prior art of record, including Kreeft (US Patent No.: 5,908,234) and Felland (US Patent No.: 5,570,947), does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose a luminaire combining:

- a lamella, a lamina or plate structure, positioned transversely between two reflector bodies disposed on either side of, and along a plane of symmetry as recited in Claim 1; and
- the lamella including its outer edge- the edge facing the light emission plane- extending and diverging from its inner edge – the edge opposing the outer edge- on either side of the plane of symmetry as recited in Claim 1.

The above-indicated combination and a typical configuration, including a plate-like structure, lamella, arrange between the reflectors bodies arranged on each side of the plane of symmetry, makes this invention unique.

Kreeft ('234) discloses a luminaire including a lamella meeting most of the limitations Claim 1, However, the lamella discloses by Kreeft ('234) extends beyond the outer curved surface of each of the reflector bodies arranged on each side of the plane

of symmetry of the device. Thus, Kreeft ('234) does not meet the limitation "positioned transversely between two reflector bodies" of the independent Claim 1.

Felland ('947) discloses a luminaire including a lamella, a lamina or plate structure, positioned transversely between two reflector bodies disposed on either side of, and along a plane of symmetry, However, Felland ('947) does not teach its outer edge- the edge facing the light emission plane- extending and diverging from its inner edge – the edge on either side of the plane of symmetry. Therefore, Felland ('947) does not meet the limitations of the independent Claim 1.

Therefore, Claim 1 is allowed over prior art.

Claims 2-11 are necessarily allowed because of their dependency on the allowed base Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
